

International Meeting Recommendations

Monday, 8 October

8:30 AM - 12:00 PM Special Interest Group on Emerging Research & Education Networks
Royal Palm Salon Three/Four

The mission of this Internet2 Special Interest Group (SIG) is to bring together the international community to address advancing the state of high-performance networking for research and education in under-served places around the world. Breakfast will be available from 8:00-9:00am outside the room.

Chair: Warren Matthews, Georgia Institute of Technology

1:00 PM - 5:00 PM International Task Force (ITF) Meeting
San Diego Room

The ITF is made up of representatives from each of the organizations with whom Internet2 has partnered through a Memorandum of Understanding (MoU). The ITF serves as the forum for discussion of international issues relevant to the development of a high-performance, leading-edge network infrastructure, advanced technologies and applications for research and education.

Tuesday, 9 October

8:45 AM - 10:00 AM South Asia SIG Planning Meeting
Royal Palm Salon Five

The South Asia SIG meeting to plan activities for the Internet2 Spring Member Meeting, 21-23 April, 2008.

8:45 AM - 10:00 AM GEANT2: An Update on Networks and Services
Sunset

GEANT2 delivers the next generation research and education network for Europe. With over 30 million users in 34 countries across the continent, GEANT2 offers unrivaled geographical coverage and high bandwidth, combined with innovative hybrid networking technology and a range of user-focused services. In addition GEANT2 connects to its counterparts in Latin America, the Mediterranean and Asia Pacific.

Cathrin Stover, DANTE (UK)

12:00 PM - 1:15 PM RENOG BoF
Towne

1:15 PM - 2:30 PM The UK Access Management Federation
Sunset

The UK Access Management Federation for Education and Research was launched in November 2006. The federation is one of the first and largest national federations to span both the schools and further/higher education sectors. This presentation will cover some of the challenges faced by this project and give an overview of the design, operation and development of the UK federation and experiences from the first year of operation.

Mark Tysom, JANET (UK)

1:15 PM - 2:30 PM Strategies for Deploying IPTV
San Diego Room

Update and report out on the range of IPTV activities on national, regional, and campus levels. The University of Sao Paulo (USP), as the most important university of Brasil, launched its Experimental IPTV last August intending to improve the academic and scientific information dissemination to not only the university community but also the society. This project has been supported by RNP and CTI/USP.

Tereza Cristina Carvalho, ANSP, LARC - University of Sao Paulo; Gilda Costa Marques, University of Sao Paulo; Regina Melo Silveira, LARC - University of Sao Paulo

International Meeting Recommendations (continued)

3:00 PM - 4:00 PM ARCA - Federated Access to Multimedia Content

Sunset

ARCA is a system able to offer a consistent view of multimedia contents available at different institutions by means of a federated approach. ARCA is in use by the RedIRIS community, and being deployed by TERENA. ARCA is an open and collaborative project, led by the University Carlos III of Madrid, with the collaboration of RedIRIS and four other Spanish universities.

Francisco Cruz, University Carlos III of Madrid; Jose Fontanillo, RedIRIS; Diego Lopez, RedIRIS

4:30 PM - 5:30 PM Integrating Campus Identities with Grid Operations

San Diego Room

A variety of international, national, regional, and campus-oriented grid infrastructure projects are developing ways to leverage a researcher's campus identity to gain access to grid services to better serve research computing needs. Panelists representing a range of grid infrastructure projects will describe their needs, assumptions, approaches, and issues in leveraging campus authentication and campus attributes for grid access.

Chad LaJoie, SWITCH (Switzerland)

Wednesday, 10 October

8:45 AM - 10:00 AM Report on the Orthopaedic Research & Education Network of Africa and the Middle East

Town & Country Room

During 2007 SICOT, GDLN (World Bank) and Internet2 have expanded the orthopaedic research and education to five countries in North Africa, five countries in Sub-Sahara Africa and five countries in the Middle East. There will also be discussion regarding the establishment of Cairo as the Education Hub of Africa and the Middle East. During the session presentations from Africa and the Middle East will be made.

James Waddell, Toronto General Hospital (Canada)

8:45 AM - 10:00 AM Enabling Virtual Organizations

Grand Hall

Management, distribution, and installation of the remote clients must be considered as well. This session will focus on how to accomplish this with advanced middleware. When one thinks of video conferencing, middleware usually isn't thought of. We will examine how middleware can solve common video conferencing deployment problems.

Pavel Farkas, Pavol Jozef Safarik University in Kosice (Slovak Republic)
